- Manuals and documents on issues in education-based therapy practice
- "Bridging the Gap" newsletter
- Loan library accessed through our website
- Technical assistance

Our Mission

Regional and Statewide Services for Students with Orthopedic Impairments (RSOI) provides information, training, resources and referral to school districts and educational programs throughout Oregon which serve students with orthopedic impairments from birth to age 21. RSOI is funded by the Oregon Department of Education.

Program Goals

- Provide direct training and technical assistance to occupational and physical therapists and other related service providers.
- Collect and disseminate information about state, regional, and national resources.
- Maintain a loan library of materials about educational issues unique to students with orthopedic impairments and multiple disabilities.
- Maintain website that includes resources, services provided and upcoming events.
- Develop and distribute technical assistance documents.
