INDEPENDENT AUDITORS' REPORT

Board of Directors Douglas Education Service District 1409 NE Diamond Lake Blvd #110 Roseburg, OR 97470

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of Douglas Education Service District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Douglas Education Service District Independent Auditors' Report June 30, 2020

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Douglas Education Service District as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flow thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Douglas Education Service District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administration Requirements, Cost principles, and audit requirements for Federal Rewards, and is not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Douglas Education Service District Independent Auditors' Report June 30, 2020

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2020, on our consideration of the Douglas Education Service District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Douglas Education Service District's internal control over financial reporting and compliance.

Other Reporting Required by Oregon Revised Statutes

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have also issued our report dated December 10, 2020, on our consideration of the District's internal control over financial reporting and on tests of its compliance with the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules OAR 162-010-0000 to 162-010-0320. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

JUNE 30, 2020

As management of Douglas Education Service District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020.

FINANCIAL HIGHLIGHTS

- In the government-wide statements, the assets of the District were less than its liabilities at June 30, 2020 by (\$7,525,784) as a result of the change in the Net Pension Liability for this year. Of this amount, \$2,199,629 represents the District's investment in capital assets, \$1,191,775 is restricted for debt service. Please refer to the Table of Contents to locate further details on the GASB 68 and GASB 75 impacts. The District implemented GASB 68 in fiscal year ending June 30, 2015.
- The District's total Net position decreased by (\$1,558,680). (\$2,669,498) of this decrease is due to the GASB 68 calculation for fiscal year ending June 30, 2020.
- The District's governmental funds report combined ending fund balance of \$6,839,585 at June 30, 2020, an increase of \$181,130 in comparison with the prior year.
- At the end of the fiscal year ended June 30, 2020, unassigned fund balance for the Governmental Funds were \$1,771,752. A decrease of \$179,028.
- General Fund revenues amounted to \$9,126,082 or 27% of total resources. Program specific resources in the form of charges for services and operating grants accounted for \$24,627,165 or 72%.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Statement of Net Position - ESD-wide and Proprietary Funds

The Statement of Net Position is used to assess the District's financial status. When compared to the previous year, you can determine if the District's financial position improved or deteriorated. The net position can also be averaged to compare with other districts. The financial position of the District reflects on its ability to meet its obligations as they come due and to finance the services of its constituency.

thereafter

Statement of Activities – ESD-wide

The Statement of Activities is used to examine cost of services, net costs of services to taxpayers, types of expenses and revenues, balance between revenues and expenses, change in financial position and its causes and unusual transactions. The change in determines if 'there is more or less left over' and if the District will be able to finance services in the future.

JUNE 30, 2020

Governmental Fund Financial Statements

The Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances track the financial activity of the District's basic services, such as instruction and support services.

Proprietary Fund Financial Statements

The Statement of Net Position and Statement of Revenues, Expenses, and Changes in Net Position track the financial activity of the District's internal services, which are similar to businesses.

Balance Sheet – Governmental Funds

The Balance Sheet is used to examine the District's short-term assets and liabilities and to determine the District's short-term need for cash. The Balance Sheet is essential to determine the District's liquidity with its focus on current assets and liabilities.

Statement of Revenues, Expenditures, and Changes in Fund Balance – Governmental Funds

The Statement of Revenues, Expenditures, and Changes in Fund Balance is used to examine the flows of short-term resources in the District, it determines if revenues and expenditures balance, and to find out if resources are available for future services.

Statement of Revenues, Expenses, and Changes in Net Position – Proprietary Funds

The Statement of Revenues, Expenses, and Changes in Net Position is used to examine proportions of changes in a proprietary fund's revenues and expenses and to assess the ability of proprietary activities to finance their costs in both the short and long-term.

Budgetary Comparison Schedule

The Budgetary Comparison Schedule is used to determine if the District followed its legally adopted budget. Also demonstrates the District's ability to budget accurately and its ability to enforce and control finances. Variances may indicate faulty estimates, policy changes, or unforeseen economic shifts.

Statement of Cash Flows - Proprietary Funds

The Statement of Cash Flows is used to identify where cash comes from and how it is used. Tracking revenue and expenditures shows that the District has sufficient resources to cover expenses, but cash flows determine if the District has enough cash on hand to actually pay its bills. With this information you can see if the operations of business type activities generated enough cash on their own to support its needs. You can also get a sense of future cash needs and the ability of the District's business type activities to pay bills as they come due.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

The Statement of Net Position. The statement of net position presents information on all of the assets and liabilities of the District as of the date on the statement. Net position is what remains after the liabilities have been paid off or otherwise satisfied.

JUNE 30, 2020

Over time, increases or decreases in net positions may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities. The statement of activities presents information showing how the net position of the District changed over the most recent fiscal year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused vacation leave).

In the government-wide financial statements, the District's activities are shown as governmental activities. All basic District functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

The government-wide financial statements can be located in the table of contents of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Douglas Education Service District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental funds (general and special revenue) The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities* (government-wide statements).

The District maintains eight individual governmental funds. Information is presented separately in the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Grants Fund, Early Intervention Fund, Early Learning Fund, Reimbursement Fund, Debt Service Fund and the Capital Improvement Fund all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining statements elsewhere in this report.

The basic governmental fund financial statement can be located in the table of contents of this report.

JUNE 30, 2020

Proprietary funds (enterprise and internal service) The District maintains two proprietary fund types. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for risk management insurance and employee benefit activities. Internal service funds use the full accrual method of accounting. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Enterprise funds are an accounting device used to account for funds that operate similar to for profit entities, and use the full accrual method of accounting. The District uses Enterprise funds to account for printing/copying services provided to outside entities. Enterprise funds are presented separately on the Government Wide Financial Statements.

The proprietary fund financial statements can be located in the table of contents of this report.

Notes to the financial statements The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be located in the table of contents of this report.

Other information In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* related to Schedules of Revenues, Expenditures and Changes in Fund Balance-Budget and Actual for the General Fund and Major Special Revenue Funds. Required supplementary information can be located in the table of contents of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented following the required supplementary information. Combining and individual fund statements and schedules can be located in the table of contents of this report.

Modified Accrual Accounting vs. Full Accrual Accounting

The following table shows the difference in modified accrual accounting, as done on past financial statements and full accrual accounting, as required by GASB34.

| | Modified Accrual | Full Accrual |
|---------|--|--|
| Revenue | Available and measurable. | Earned and measurable. |
| | Record revenue if payment is received during year or soon after (within 60 days) and is available to pay current year's liabilities. | Earned and is "reasonably certain to be collected." |
| Expense | Recognize in the accounting period in which the fund liability in incurred, and measurable. | Recognize in the accounting period in which the liability is incurred and measurable. |
| | Records expenditures. Outflow cash, or promise to pay for goods and services that have been received. | Records expenses. Decreases in net assets resulting from the using up or Outflows of assets in the course of operating and providing goods and services. |

JUNE 30, 2020

FINANCIAL ANALYSIS OF THE ESD'S FUNDS

Below are graphs showing the composition of the sources of funds (revenue) and expenditures in our fund groups:

General Fund – resolution programs and overhead Special Revenue Funds – regional programs, early intervention program, grants and contracts

| Rev | enues | as of June 30 | | | | | | | | | | |
|-----------------------------|-------|---------------|----|------------|--|--|--|--|--|--|--|--|
| Revenue Source 2020 2019 | | | | | | | | | | | | |
| Local Sources | \$ | 13,001,101 | \$ | 12,824,661 | | | | | | | | |
| Intermediate Sources | | 1,146,939 | | 551,751 | | | | | | | | |
| State Sources | | 17,396,007 | | 16,384,765 | | | | | | | | |
| Federal Sources | | 2,857,664 | | 2,894,513 | | | | | | | | |
| Total | \$ | 34,401,912 | \$ | 32,655,690 | | | | | | | | |

Revenue increased overall as Local, Intermediate and State sources realized increased funding commitments for the 2020-21 biennium.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (THE ESD AS A WHOLE)

Statement of Net Position As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities exceeded assets by \$7,525,784 as of June 30, 2020. Net position is divided into amounts representing (1) capital assets, net of related debt, (2) restricted by external restriction, and (3) unrestricted.

Capital assets, which consist of the District's land, buildings, building improvements, construction in progress, vehicles, and equipment represent about 10 percent of total assets. The District uses these capital assets to provide services to students and other District residents; consequently these assets are not available for future spending. The remaining assets consist mainly of investments, cash, pension assets and grants and property taxes receivable.

The District's total long term liabilities are \$25,224,901. Net Pension Liability for GASB 68 is \$21,098,406 of the long-term liabilities. In addition, implementation of GASB 68 has added Deferred Inflow of Resources for future PERS Obligations of \$1,224,299. Please locate Note 6 in the table of contents in this report for further information. Current liabilities, representing about 10% of the District's total liabilities and deferred inflow of resources, consist almost entirely of payables on accounts, salaries and benefits, and the current portion of long-term debt principle. Current Liabilities total \$3,474,394.

During the current fiscal year, the District's net position decreased by (\$1,558,680).

JUNE 30, 2020

| NET POSITION AT J | UNE 30 | | |

JUNE 30, 2020

- Property tax revenues increased by about \$219,062 or 5% during the year.
- Operating grants and contributions increased by 6%, showing an increase in grant/contract amounts awarded to the district.
- Investment earnings increased by \$47,101, reflecting a 65% increase during the year.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of net resources available for spending at the end of a fiscal year.

At June 30, 2020, the District's governmental funds reported combined ending fund balances of \$6,839,584 an increase of \$181,130 in comparison with prior year. Most of this is in the Grants & Projects Fund.

General Fund. The General Fund is the primary operating fund of the District. As of June 30, 2020, unassigned fund balance was \$1,390,554. The fund balance decreased by (\$255,372) during the current fiscal year. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance at June 30, 2020 represented 15% of total expenditures for the year ended June 30, 2020.

Debt Service Fund. The Debt Service Fund has a total fund balance of \$1,191,775, all of which is restricted for the payment of debt service.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment, and construction in progress. As of June 30, 2020, the District has invested \$2,199,629 in capital assets, net of depreciation, as shown in the following table:

| Capital A (net of dep June 30 | reciation) | | | | | | | | | | |
|-------------------------------------|------------|--------|-----------|--|--|--|--|--|--|--|--|
| 2020 2019 | | | | | | | | | | | |
| Land | \$ 51, | 996 \$ | 51,996 | | | | | | | | |
| Buildings & improvements | 1,756, | 134 | 1,251,637 | | | | | | | | |
| Vehicles & equipment | 391,4 | 499 | 211,602 | | | | | | | | |
| Total | \$ 2,199,0 | 529 \$ | 1,515,235 | | | | | | | | |

Additional information of the District's capital assets can be found in the notes to the basic financial statements.

JUNE 30, 2020

Long-term debt. At the end of the current fiscal year, the District had total bonded debt outstanding of \$2,827,779 consisting of PERS bond debt net of unamortized premium/discount. This is a limited tax pension obligation and not subject to the state statutes limit on the amount of general obligation debt a governmental entity may issue as a percent of its total assessed valuation. Since the District has no general obligation debt, the statutory debt limitation is not an issue. With the implementation of GASB 68, additional long term liabilities as deferred inflow of resources in the amount of \$1,224,299 is reflected on the Statement of Net Position.

PERS is the Oregon public pension system. Under such a plan the actuarial liability is the present value of the plan's current and expected benefit payments, less the plan's assets. If the liability exceeds the assets of the plan, the plan has a shortfall known as an unfunded actuarial liability (UAL). The District issued the bonds to reduce its future pension obligation estimated at \$ 8.7 million at an interest rate below the rate charged by PERS on the UAL.

Additional information on the District's long-term debt and GASB 68 can be found in the notes to the basic financial statements of this report.

In April 2018, the District incurred debt to remodel new administrative offices located in the new City of Roseburg Library. Original Issue amount was \$1,700,000 with maturity in 2033. Please see the table of contents for Note 5 for additional detail.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

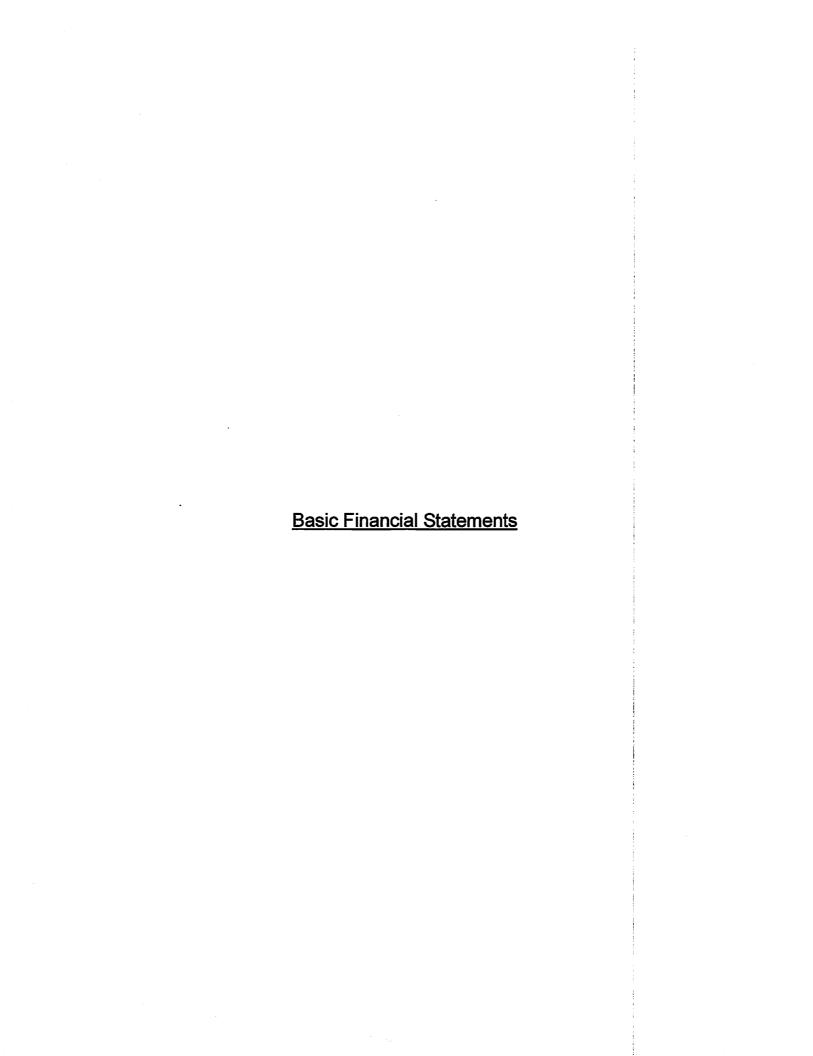

The most significant economic factor for the District is the State of Oregon's State School Fund. For the year ended June 30, 2020, the State School Fund – General Support provided over 22% of the District's General Fund program revenues.

The COVID-19 pandemic had minimal financial impact on the District in the final quarter of 2019-20. The District continued to provide services as required and fulfilled its contractual obligations with the State of Oregon. In 2019, The Oregon State Legislature passed the Student Success Act. This initiative is expected to invest \$2 Billion in Oregon education every two years. Early Learning and K-12 education is expected to receive half of this investment. Douglas Education Service District provides services for a number of large contracts with the State of Oregon for Early Learning and Early Intervention/Early Childhood Special Education. In 2020-21, the District will be receiving approximately \$5M in additional funding for the Early Intervention/Early Childhood Special Education initiative part of the Student Success Act. Please visit this link for more information about the Student Success Act.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance Governmental Funds to the Statement of Activities

| For | the | Year | Ended | June | 30. | 2020 | |
|-----|-----|------|-------|------|-----|------|--|
|-----|-----|------|-------|------|-----|------|--|

| changes in fund balances - total governmental funds | | \$ 181,130 |
|--|---------------|-------------------|
| Amounts reported for governmental activities in the Statement of Activities are different because: | | |
| Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense. | | |
| Current Year Additions | \$ 895,530 | |
| Current Year Depreciation | (163,038) | 732,492 |
| Some property tax revenues will not be collected for several months after the District's fiscal year end and are therefore not considered "available" revenues | | |
| in the governmental funds, instead these funds are shown as deferred revenue. However, these funds are recorded as revenue in the statement of activities. | | (15,903 |
| The net effect of various miscellaneous transactions involving capital assets | | |
| (i.e., sales, trade-ins and donations) is to increase/decrease net position. In the Statement of Activities, only the loss on the sale of assits is reported. | | |
| However, in the governmental funds, the proceeds from the sale increase | | |
| financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold: | | |
| Loss on disposal of assets | | (48,098) |
| In statement of Activities, contributions for other postemployment benefits greater | | |
| than the actuarially determined contribution amount increases the other post- employment benefit obligation. In the governmental funds the entire contribution is | | |
| recognized as an expenditure. This is amount by which net asset obligation increased: | | (2,194) |
| The net income of the internal service funds is reported with governmental activities | | 6,394 |
| | | |
| Changes in net pension liability, the related changes in deferred outflows and deferred inflows of resources are not recognized as expenses in the government funds: | | (2,669,498) |
| Changes in net RHIA PERS liability, the related changes in deferred | | |
| outflows and deferred inflows of resources are not recognized as expenses in the government funds: | | 73,650 |
| Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Assets, however, issuing long-term debt increases fund liabilities. Similarly, repayment of bond principal and capital leases are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. | | |
| Debt principal repaid | | 211,537 |
| Change in Net Position - Governmental Activities | | \$ (1,530,490) |

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Douglas Education Service District (the District) is a municipal corporation governed by a separately elected seven-member Board of Directors. Administrative officials are approved by the Board. The daily functioning of the District is under the supervision of the Superintendent. As required by accounting principles generally accepted in the United States of America, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) governmental organizations for which the primary government is financially accountable, but for which the nature and significance of their financial relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District has no component units.

A. Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District. These statements include all the financial activities of the District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, materials, supplies or services provided, (2) operating grants and contributions, and (3) Capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Net position are reported as restricted when constraints placed on net asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

A. Basis of Presentation (Cont'd)

Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Separate fund financial statements are provided for governmental funds and internal service funds.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each governmental fund category are presented. The emphasis of fund financial statements is

_____at June 30. 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

on major governmental funds, each being displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

The District reports the following major governmental funds:

General Fund - This is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund. Principal revenue sources are an apportionment from the State of Oregon and property taxes.

Grants Fund - This fund is used to account for the expenditures and receipts of various state and federal grants along with other projects and special revenue.

Early Intervention Grant Fund - This fund is used to account for the Early Intervention Grant Funds received through State and Federal Sources.

Early Learning Hub Fund - Fund accounts for private sourced contributions and related expenditures.

Reimbursement Fund – This fund is to account for the revenues received from other districts for reimbursement of substitute's wages, business services contracted out to other districts, special education services and superintendent services to outside districts.

Debt Service Fund (PERS) - The ESD Board authorized the bonding of a portion of the ESD's unfunded actuarial liability with the Oregon Public Employees Retirement System. An assessment on wages paid by each fund provides the revenue to repay the debt.

Capital Improvement Fund – This fund is to account for capital improvements for the district. Originally created to account for the remodel (leasehold improvements) of the library building owned by the City of Roseburg for ESD offices.

The District reports the following non-major governmental funds:

Facility Maintenance Fund – This fund is used for the eventual maintenance for parts of the facility that would require substantial resources. Departments may allocate transfers from their general fund budgets to this fund for future use.

The District reports the following Enterprise funds:

Production Services Fund - Provides a full-service print shop, operated on a cost recovery basis.

The District reports the following internal service funds:

Unemployment Reserve Fund - This fund accounts for revenues and expenditures for unemployment insurance claims paid to the State of Oregon. The revenues are provided by assessments to wage accounts.

Early Retirement Fund - An early retirement plan was adopted by the ESD Board in the 1984 calendar year. On April 18, 2002, the plan was discontinued for new hires. In the collective

June 30, 2020

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)</u>

bargaining agreement with DESD, the plan phased out with specific benefits outlined for existing employees. This fund is established to fund the liability for these benefits. The revenues are provided by assessments to wage accounts.

Computer Replacement Fund - This fund accounts for revenue and expenditures related to replacement of technology equipment. The revenues are provided by assessments to other funds.

Facility Reserve Fund – This fund account for revenues and expenditures related to the facility. The revenues are provided by assessments to other funds.

PERS Reserve Fund – This fund is used to offset higher anticipated PERS rates in the future. Monies are transferred to this fund after the required minimum reserve has been met in the PERS Bond Fund.

Government-Wide Financial Statements - The government-wide financial statements are reported using the *economic resource measurement focus* and the *accrual basis of accounting*, as is the proprietary financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule the effect of interfund activity has been eliminated from the governmental-wide financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

<u>Fund Financial Statements</u> - Governmental fund financial statements are reported using the *current financial resources measurement focus* and *modified accrual basis of accounting*. Under this method of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenue available if collected within 60 days after year end.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Cont'd)

Expenditures are recorded when the related fund liability is incurred, except for expenditures for principal and interest on long-term debt which is recognized when due, certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources, and early retirement benefits which are recorded when paid.

The District reports deferred revenue on its combined balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period.

Deferred revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance

June 30, 2020

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Cont'd)

sheet and revenue is recognized. Delinquent property taxes and property taxes for which there is an enforceable legal claim which are not collected within 60 days of the fiscal year end, have been recorded as deferred revenue.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide and fiduciary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Standards Board.

When both restricted and unrestricted resources are available for use, it is the District=s policy to use restricted resources first, then unrestricted resources as they are needed.

C. Cash and Investments

The District's cash and investments include amounts in demand deposits, certificates of deposit, savings accounts, secured market deposit accounts and the State Pool. The District's cash management policies are governed by state statutes which authorize the District to invest in bankers' acceptances, time certificates of deposit, re-purchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool. The Local Government Investment Pool is included in the Oregon Short Term Fund which was established by the State Treasurer. The Oregon Short Term Board and the Oregon Investment Council regulate OSTF investments (ORS 294.805-294.895). Cash is stated at cost while investments are stated at fair market value.

D. Property Taxes Receivable

Property taxes receivable which has been collected within sixty days subsequent to the year-end are considered measurable and available and are therefore recognized as revenue in the fund statements. All other property taxes receivable are offset by deferred revenue and, accordingly, have not been recorded as revenue in the fund statements. Both real and personal property taxes attach as an enforceable lien on property as of July 1. All taxes are levied as of the lien date and are payable in three installments on November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15, or February 15. Taxes unpaid and outstanding after May 15 are considered delinquent.

D. Property Taxes Receivable (Cont'd)

Uncollected property taxes are deemed to be substantially collectible or recoverable through liens, therefore, no provision for uncollectibles has been made in the government-wide financial statements.

E. Receivables

Accounts receivable represent federal and state grants and entitlements, as well as various miscellaneous fees and refunds. Due to the nature of the receivables and the likelihood of collection, no provision for uncollectibles has been made.

Financial Statements at June 30, 2020

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)</u>

F. Grants

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues.

G. Inventory

Inventories of supplies and materials in the governmental funds are stated at cost. Inventory items are charged to expenditures of the user department at the time of withdrawal from inventory (consumption method).

H. Capital Assets

Capital assets which include land and improvements, buildings and improvements, vehicles, furniture, and equipment, are reported in the government-wide financial statements.

| Print Shop Equipment | 25 years |
|----------------------------|----------|
| Buildings and Improvements | 50 years |
| Office Equipment | 5 years |
| Vehicle | 5 years |

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost, or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated fair market value at the date of the donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Proceeds from sales of capital assets are recorded as revenue in the fund originally financing the purchase if identifiable; if not, then the revenue is recorded in the General Fund.

I. Retirement Plan

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged as expenses/expenditures as funded. GASB Statements 68 and 71 have been implemented as of July 1, 2015.

J. Post-Employment Health Care Benefits

Eligible employees who elect early retirement are entitled to participate in the District's group medical insurance plan. Eligible employees in the early retirement plan have a portion of such costs paid by the District.

K. Compensated Absences

at

June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. The current and long-term liabilities for vested or accumulated vacation leave, compensatory time, and retirement benefits are reported on the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave or resignation.

No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

L. Fund Balance & Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for expenditures or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

M. Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures for the reporting period. Actual results may differ from those estimates.

2. <u>BUDGETS</u>

Operating budgets are adopted each year for the General and Special Revenue Funds on a modified accrual basis of accounting, consistent with Oregon Budget Laws.

The District begins its budget process early in each fiscal year with the establishment of the budget committee. Recommendations for a proposed budget are developed through early spring with the budget committee approving the budget in late spring. Public notices of the budget committee meetings and budget hearing are published generally in late spring with a public hearing being held within 25 days. The budget is adopted, appropriations are made and the tax levy declared no later than June 30 of each year.

at

June 30, 2020

2. <u>BUDGETS</u> (Cont'd)

The resolution making appropriations for each fund is enacted in the major program areas of instruction, support services, community and enterprise services, interagency fund transactions, debt service and contingency. Under State law, the appropriation levels become the legal spending control levels for District operations, and, therefore, no greater expenditure of public money may be made for any purpose other than that for which it was appropriated except where specifically provided by statute. Management may, however, make line item changes at any time within appropriation categories without formal action. If, during the year, the District receives unanticipated revenues that cannot be spent without budget authorization, a supplemental budget is prepared to authorize the spending of the additional revenues. Original and supplemental budgets may be modified by the use of appropriation transfers made within a given fund or from the General Fund to another fund when authorized by Board resolution. The budget data reflected in the combined financial statements and the individual fund financial statements reflect the effects of such approved transfers. All annual appropriations lapse at fiscal year-end.

3. CASH & INVESTMENTS

Cash Deposits

Cash Deposits

Deposits with Financial Institutes
Cash in State Pool

\$6,847,812

925,687

\$7,773,499

The District's cash management policies are governed by state statutes. Statutes authorize the District to invest in bankers' acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool. Deposits in excess of \$250,000 are covered by Oregon Revised Statute Chapter 295 which require the depository institution to maintain on deposit securities having a value sufficient to cover all public funds in their institution and must apply and be approved by the State of Oregon. Wells Fargo Bank, NA is an approved financial institution and as such, at June 30, 2020 the District was in compliance.

Investments

The Local Government Investment Pool (LGIP) is included in the Oregon Short Term Fund (OSTF), which was established by the State Treasurer. OSTF is not subject to SEC regulation and does not receive credit quality ratings from nationally recognized statistical rating organizations. OSTF is subject to requirements established in Oregon Revised Statutes, investment policies adopted by the Oregon Investment Council, and portfolio guidelines established by the Oregon Short Term Fund Board. The Governor appoints the members of the Oregon Investment Council and the Oregon Short Term Fund Board. The OSTF financial statements are available at http://www.ost.state.or.us/. The fair value of the District's deposit with the LGIP approximates the cost.

The Local Government Investment Pool is included in the Oregon Short Term Fund (OSTF), which was established by the State Treasurer. The Oregon Short Term Fund Board and the Oregon Investment Council regulate OSTF investments (ORS 294.805 to 294.895).

The District has no formal investment policy to deal with the interest rate risk and credit risk. In practice, the District has limited the investments in the LGIP and Certificates of Deposits that mature within one year. The District may redeem any money invested in the LGIP at any time.

3. <u>CASH & INVESTMENTS</u> (Cont'd)

Credit Risk. The LGIP's portfolio concentration of credit risk at June 30, 2020 included:

LGIP credit risk data:

| U.S. Government & Agency securities | 25.84% |
|-------------------------------------|--------|
| Municipal Government securities | 1.85% |
| Commingled Investment Pool | 0.96% |
| Non-U.S. Government debt | 8.15% |
| Corporate Commercial Paper | 5.44% |
| Corporate obligations | 37.16% |
| Asset-backed securities | 18.97% |
| Certificates of Deposits | 1.30% |
| Cash in Banks | 0.33% |

Interest Rate Risk. While the District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates, it has historically invested only in the LGIP.

LGIP investments as of June 30, 2020:

| mature within 93 days | 59.50% |
|-----------------------------------|--------|
| mature within 94 days to one year | 17.85% |
| mature one year and beyond | 22.65% |

| 1.5% to 6.27% through 2028 | \$4,597,617 | \$ | 2,827,780 |

The District paid \$489,410 in the fiscal year ending June 30, 2020. The payment included interest of \$365,871 and principal of \$123,539.

The pension bonds will be paid from revenues in the debt service fund generated by charges to other funds.

Future maturities for the pension bonds are as follows:

Governmental Activities

| Year Ended June 30, | Principal | Interest | Total |
|---------------------|-------------|-------------|-------------|
| 2021 | 123,056 | 391,354 | 514,410 |
| 2022 | 122,544 | 416,867 | 539,411 |

| Total | \$1,513,579 | \$ 430,688 | \$1,944,267 |

June 30, 2020

5a. CERTAIN DISCLOSURES RELATED TO DEBT, INCLUDING DIRECT BORROWINGS AND <u>DIRECT PLACEMENTS - GASB 88 – Cont'd</u>

The District has no unused line of credit and no collateral has been pledged for this loan. The loan is a Full Faith and Credit Loan. If the District pays off the loan early it is subject to a prepayment premium if another financial institution provides the proceeds. The prepayment premium is reduced each year by a percentage point.

The premium schedule is as follows:

| Redemption Period: (Dates inclusive) | Premium |
|--|---------|
| April 23, 2018 through April 22, 2019 | 5% |
| April 23, 2019 through April 22, 2020 | 4% |
| April 23, 2020 through April 22, 2021 | 3% |
| April 23, 2021 through April 22, 2022 | 2% |
| April 23, 2022 through April 22, 2023 | 1% |
| April 23, 2023 & thereafter | 0% |

6. PENSION PLAN

General Information about the Pension Plan

Plan Description

Employees of the district are provided with pensions through the Oregon Public Employees Retirement System (OPERS) a cost-sharing multiple-employer defined benefit pension plan, the Oregon Legislature has delegated authority to the Public Employees Retirement Board to administer and manage the system. All benefits of the System are established by the legislature pursuant to ORS Chapters 238 and 238A. Tier One/Tier Two Retirement Benefit plan, established by ORS Chapter 238, is closed to new members hired on or after August 29, 2003. The Pension Program, established by ORS Chapter 238A, provides benefits to members hired on or after August 29, 2003. OPERS issues a publicly available Comprehensive Annual Financial Report and Actuarial Valuation that can be obtained at http://www.oregon.gov/pers/Pages/section/financialreports/fmancials.aspx.

Benefits Provided

1. Tier One/Tier Two Retirement Benefit ORS Chapter 238

June 30, 2020

6. <u>PENSION PLAN</u> (Cont'd)

Pension Benefits

The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- the member was employed by a PERS employer at the time of death
- the member died within 120 days after termination of PERS-covered employment
- the member died as a result of injury sustained while employed in a PERS-covered job, or
- the member was on an official leave of absence from a PERS-covered job at the time of death.

Disability Benefits

A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS- covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

Benefit Changes

After Retirement Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2015 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

2. OPSRP Pension Program (OPSRP DB)

Pension Benefits

The Pension Program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

at June 30, 2020

6. PENSION PLAN (Cont'd)

General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits

A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes After Retirement

Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2015 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

3. OPSRP Individual Account Program (OPSRP IAP)

Pension Benefits

An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP Individual Account Program (IAP) may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

6. <u>PENSION PLAN</u> (Cont'd)

Recordkeeping

OPERS contracts with VOYA Financial to maintain IAP participant records.

Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation as subsequently modified by 2019 legislated changes in benefit provisions. The rates based on a percentage of payroll, first became effective July 1, 2019. Employer contributions for the year ended June 30, 2020 were \$3,135,839, excluding amounts to fund employer specific liabilities. The rates in effect for the fiscal year ended June 30, 2020 were 27.16 percent for Tier One/Tier Two General Service Member, 21.71 percent for OPSRP Pension Program General Service Members, and 6 percent for OPSRP Individual Account Program.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the district reported a liability of \$21,098,406 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017 rolled forward to June 30, 2019. The district's proportion of the net pension liability was based on a projection of the district's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2019, the district's proportion was 0.12197 percent, which was decreased from its proportion of 0.12231 measured as of June 30, 2018.

For the year ended June 30, 2020, the district's recognized pension expense of \$2,669,498. At June 30, 2020, the district reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

OPSRP Individual Account Program (OPSRP IAP)

| | red Outflows of Resources | _ | inflows of ources |
|--|----------------------------------|--------|-------------------|
| Differences between expected and acutal experience | \$ 1,163,515 | \$ | - |
| Changes of assumptions | 2,862,240 | | - |
| Net difference between projected and actual earnings on investments | - | 5 | 98,118 |
| Changes in porportion | 390,718 | 4 | 34,575 |
| Difference between employer contributions and proportionate share of contributions | 72,742 | 1 | 53,051 |
| Total(prior to post-MD contributions) | 4,489,215 | 1,1 | 85,744 |
| Contributions subsequent to the MD | 3,135,839 | | |
| Total | \$ 7,625,054 | \$ 1,1 | 85,744 |

June 30, 2020

6. PENSION PLAN (Cont'd)

Deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Deferred Or | utflows | Deferred Inflows | | |
|----------------|--------------|------------------|-------|---|
| Amortization P | eriod | Amortization Pe | eriod | |
| FY2021 | \$ 1,917,383 | FY2021 | \$ | - |
| FY2022 | 177,459 | FY2022 | | - |
| FY2023 | 684,969 | FY2023 | | - |
| FY2024 | 494,126 | FY2024 | | - |
| FY2025 | 29,533 | FY2025 | | - |
| Thereafter | - | Thereafter | | - |
| | \$ 3,303,470 | | \$ | - |

Actuarial Assumptions

The employer contribution rates effective July 1, 2019, through June 30, 2021 and effective July 1, 2019, through June 30, 2020, were set using the projected unit credit actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial Assumptions (Cont'd)

The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

June 30, 2020

(Source: June 30, 2019 PERS CAFR)

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2016 Experience Study which reviewed experience for the four-year period ending on December 31, 2016.

Long-term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation.

The OIC's description of each asset class was used to map the target allocation to the asset classes shown below.

6. <u>PENSION PLAN</u> (Cont'd)

Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

| Asset Class | Target |
|------------------------|--------|
| Cash | 0.0% |
| Debt Securities | 20.0% |
| Public Equity | 37.5% |
| Private Equity | 17.5% |
| Real Estate | 12.5% |
| Alternatives Portfolio | 12.5% |
| Opportunity Portfolio | 0.0% |
| Total | 100.0% |

6. PENSION PLAN (Cont'd)

Depletion Date Projection

GASB 68 generally requires that a blended discount rate be used to measure the Total Pension Liability (the Actuarial Accrued Liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that

the plan's Fiduciary Net Position is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the Fiduciary Net Position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 68 will often require that the actuary perform complex projections of future benefit payments and pension plan investments. GASB 68 (paragraph 67) does allow for alternative evaluations of projected solvency, if such evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation of sufficiency for PERS:

- PERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.

Depletion Date Projection

• GASB 68 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience which might impact the plan's funded position.

Based on these circumstances, it is our independent actuary's opinion that the detailed depletion date projections outlined in GASB 68 would clearly indicate that the Fiduciary Net Position is always projected to be sufficient to cover benefit payments and administrative expenses.

Discount Rate

The discount rate used to measure the total pension liability was 7.2 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the district's proportionate share of the net pension liability calculated using the discount rate of 7.2 percent, as well as what the district's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.2 percent) or 1-percentage-point higher (8.2 percent) than the current rate:

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued OPERS financial report.

Changes in Plan Provisions During the Measurement Period

The Oregon Supreme Court on April 30, 2015, ruled that the provisions of Senate Bill 861, signed into law in October 2013, that limited the post-retirement COLA on benefits accrued prior to the signing of the law was unconstitutional. Benefits could be modified prospectively, but not retrospectively. As a result, those who retired before the bills were passed will continue to receive a COLA tied to the Consumer Price Index that normally results in a 2% increase annually. OPERS will make restoration payments to those benefit recipients.

Changes in Plan Provisions During the Measurement Period Con't)

OPERS members who have accrued benefits before and after the effective periods of the 2013 legislation will have a blended COLA rate when they retire.

This change in benefit terms were reflected in the current valuation.

Changes in Plan Provisions Subsequent to Measurement Date (GASB 68)

Subsequent to the June 30, 2018 measurement date, Oregon Senate Bill 1049 was passed. The bill re-amortized Tier 1 and Tier 2 Unfunded Accrued Liabilities, on a one-time basis, from 22-years after which point the amortization schedule for these two benefit plans revert to 20-years on January 2, 2020.

6a. OTHER POST EMPLOYMENT BENEFITS RHIA (GASB 75)

Plan Description:

As a member of Oregon Public Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

Funding Policy:

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the

June 30, 2020

6a. OTHER POST EMPLOYMENT BENEFITS RHIA (GASB 75) (Cont'd)

Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating districts are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.50% of annual covered OPERF payroll and 0.43% of OPSRP payroll under a contractual requirement in effect until June 30, 2019. The OPERS Board of Trustees sets the employer contribution rates based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortized any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years.

At June 30, 2020, the District reported a net OPEB asset of \$188,390 for its proportionate share of the net OPEB liability. The OPEB asset was measured as of June 30, 2019, and the total OPEB liability/(asset) used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of December 31, 2017. Consistent with GASB Statement No. 75, paragraph 59(a), the District's proportion of the net OPEB liability/(asset) is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. As of the measurement date of June 30, 2019, the District's proportion was 0.09749 percent, up from 0.09419 percent at June 30, 2018. OPEB expense for the year ended June 30, 2020 was \$25,279.

Components of OPEB Expense/(Income):

Employer's proportionate share of collective system OPEB Expense/(Income) \$(24,501)

Net amortization of employer-specific deferred amounts from:

- Changes in proportionate share (per paragraph 64 of GASB 75) (778)

-Differences between employer contributions and employer's proportionate share of system contributions

| Net difference between projected and actual earnings on investments | - | | 11,628 | | |
| Changes in proportionate share | 104 | | 1,889 | | |
| Difference between employer contributions and proportionate share of contributions | - | | - | | |
| Total (prior to post-MD contributions) | 104 | | 38,555 | | |
| Contributions subsequent to the MD | <u>-</u> | | - | | |
| Total | \$ 104 | \$ | 38,555 | | |

The amount of contributions subsequent to the measurement date will be included as a reduction/increase of the net OPEB liability/(asset) in the fiscal year ended June 30, 2020.

Amounts reported as deferred outflows or inflows of resources related to pension will be recognized in pension expense as follows:

| Year ending June 30 | Amount |
|---------------------|-------------|
| FY2021 | \$ (19,667) |
| FY2022 | (17,743) |
| FY2023 | (2,239) |
| FY2024 | 1,198 |
| FY2025 | - |
| Thereafter | |
| Total | \$ (38,451) |
| | |

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS Retirement Health Insurance Account Cost-Sharing Multiple-Employer Other Postemployment Benefit (OPEB) Plan Schedules of Employer Allocations and OPEB Amounts by Employer report, as of and for the Year Ended June 30, 2018. That independently audited report was dated December 16, 2019 and can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf

(Source: June 30, 2019 PERS CAFR)

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based in the 2016 Experience Study which is reviewed for the four-year period ending December 31, 2016.

June 30, 2020

6a. OTHER POST EMPLOYMENT BENEFITS RHIA (GASB 75) (Cont'd)

Discount Rate:

The discount rate used to measure the total OPEB liability was 7.2 percent. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumption team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

6a. OTHER POST EMPLOYMENT BENEFITS RHIA (GASB 75) (Cont'd)

Sensitivity of the District's proportionate share of the net OPEB liability/(asset) to changes in the discount rate - The following presents the District's proportionate share of the net OPEB liability/(asset) calculated using the discount rate of 7.2 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.2 percent) or 1-percentage-point higher (8.2 percent) than the current rate.

| | 1% | Discount | 1% |
|---------------------------------------|--------------|--------------|--------------|
| | Decrease | Rate | increase |
| | (6.2%) | (7.2%) | (8.2%) |
| District's proportionate share of the | | | |
| net RHIA liability (asset) | \$ (146,051) | \$ (188,390) | \$ (224,466) |

Changes Subsequent to the Measurement Date

The current assumed rate is 7.2 percent and has been in effect since January 1, 2018

June 30, 2020

7. OTHER POST-EMPLOYMENT BENEFITS (OPEBs)

Early Retirement

Funding Policy - The benefits from this program are fully paid by the District and, consequently, no contributions by employees are required. The Early Retirement Fund also accounts for resources and payment of post-employment health care benefits for early retirees.

Post-Employment Health Care Benefits

Plan Description - The District, as a result of collective bargaining agreements, offers post-employment health care benefits for all employees who have completed 10 years of continuous service and are between age 58 and 65, are eligible for full PERS benefits, and elected to retire prior to December 31, 2005.

For these retirees, benefits are fully paid by the District and are available until the retiree is eligible for Medicare.

Effective January 1, 2006, the District's retiree insurance became \$300 per month for major medical coverage. The amount contributed by the District increased by the same percentage as the District's contribution toward regular bargaining unit employees' insurance premiums, up to a maximum of 5% on each insurance anniversary date.

Contributions - Contributions are financed by a transfer from the General Fund. Transfers from the General Fund in fiscal years 2020 and 2019 were \$0 and \$0, respectively. Expenditures are recorded on the pay-as-you-go basis. The cost of these benefits in fiscal years 2020 and 2019 amounted to approximately \$28,643 and \$22,362, respectively.

Post-Employment Health Insurance Subsidy

The District implemented GASB Statement 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions (OPEB) for the fiscal year ended June 30, 2010. This implementation allows the District to report its liability for other post-Employment benefits consistent with established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements.

Plan Description - The District operates a single-employer retiree benefit plan that provides postemployment health, dental vision and life insurance benefits to eligible employees and their spouses.

There are 15 total active members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements.

The District's post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulate that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims costs, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the District's implicit employer contribution.

7. OTHER POST-EMPLOYMENT BENEFITS (OPEBs) (Cont'd)

Funding Policy - The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance.

Annual OPEB Cost and Net OPEB Asset - The District's annual other post-employment benefit cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance within the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the OPEB obligation at the end of the year:

| | 2020 | | 2019 | | 2018 | 2017 |
|--------------------------------------|------|----------|------|----------|---------------|---------------|
| Actual Contribution | \$ | - | \$ | - | \$ - | \$ - |
| Actual Expense | | (28,643) | | (22,362) | (11,562) | (18,850) |
| Excess Contribution | | (28,643) | | (22,362) | (11,562) | (18,850) |
| Annual Required Contribution | | 2,194 | | 2,257 | 1,369 | 4,353 |
| Actual Expense | | (28,643) | | (22,362) | (11,562) | (18,850) |
| Net Annual OPEB (ARC-Actual Expense) | | 26,449 | | 20,105 | 10,193 | 14,497 |
| Net Increase in OPEB Asset | | (2,194) | | (2,257) | (1,369) | (4,353) |
| Net Assets at Beginning of Year | | 205,060 | | 207,317 | 208,686 | 213,039 |
| | \$ | 202,866 | \$ | 205,060 | \$ 207,317 | \$ 208,686 |

The District's annual OPEB cost, the contribution, the percentage of annual OPEB cost contributed to the plans, and the net OPEB obligation for 2020 and 2019, were as follows:

| | | | Prio | r Year and | Percentage of | | | | |
|---------------|----|---------|---------------------|------------|--------------------------|----|------------------|--|-------|
| Fiscal Year | / | 4nnual | Current Year | | Current Year Annual OPEB | | et OPEB | | |
| Ended June 30 | OP | EB Cost | Contributions | | Contributions | | Cost Contributed | | Asset |
| 2015 | \$ | 97,239 | \$ | 118,711 | 122% | \$ | 305,053 | | |
| 2016 | \$ | 97,239 | \$ | 5,225 | 5% | \$ | 213,039 | | |
| 2017 | \$ | 4,353 | \$ | - | 0% | \$ | 208,686 | | |
| 2018 | \$ | 1,369 | \$ | - | 0% | \$ | 207,317 | | |
| 2019 | \$ | 2,257 | \$ | - | 0% | \$ | 205,060 | | |
| 2020 | \$ | 2,194 | \$ | - | 0% | \$ | 202,866 | | |

Actuarial Methods and Assumptions. The actuarial cost method used to determine the cost and liabilities for this plan was the aggregate cost method. Under this method, the unfunded value of all benefits expected to be paid from the plan is spread over the expected working career of all participants in such a way that annual costs are expected to remain level.

In the June 30, 2010 actuarial valuation, (the last actuarial valuation performed) the entry age actuarial cost method was used. It is not deemed necessary to continue to have the actuarial valuation completed each year due to the cost to benefit valuation of the information it would provide compared to the current method of having the District's CFO perform the calculation. The original actuarial assumptions included a discount rate of 1% and a 100% assumption of participants who elect medical coverage at retirement. They also assume medical and prescription drug costs would increase at 5%

7. OTHER POST-EMPLOYMENT BENEFITS (OPEBs) (Cont'd)

inflation for the current year, and future years. The demographic assumptions, such as mortality rates, disability incidence rates, retirement rates, and withdrawal rates, are the same as those used by Oregon PERS for School Districts.

8. CLAIMS AND LITIGATION

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, or expenditures which may be disallowed by the grantor agencies cannot be determined at this time, although the District expects such amounts, if any to be immaterial.

Management has represented that here are no contingent liabilities that require disclosure or recognition in accordance with FASB Statement No. 5. Such contingent liabilities would include, but would not be confined to: notes or accounts receivable which have been discounted; pending suits; proceedings, hearings, or negotiations possibly involving retroactive adjustments; unsatisfied judgments or claims; taxes in dispute; endorsements or guarantees; and options.

9. RISK

To reduce the risk of loss from liability, fire, theft, accident, medical costs, errors and omissions, the District maintains various commercial insurance. No settlements exceeded insurance coverage in each of the three preceding years.

10. INTERFUND TRANSFERS

The transfers between funds were operational in nature. The following is a summary of interfund transfers reported in the fund financial statements:

| | Transfe | ers In | Tra | ansfers Out | | | |
|---------------------------|---------|---------|-----|-------------|--|--|--|
| General Fund | \$ | - | \$ | 45,000 | | | |
| Grants Project Fund | 9,4 | 65,859 | | - | | | |
| Early Intervention Fund | | - | | 9,465,859 | | | |
| Reimbursement Fund | | | | | | | |
| Facility Maintenance Fund | | 32,583 | | - | | | |
| Capital Improvement Fund | | - | | 17,583 | | | |
| Unemployment Fund | | | | | | | |
| Facility Reserve Fund | | 30,000_ | | _ | | | |
| | \$ 9,5 | 28,442 | \$ | 9,528,442 | | | |

11. GASB STATEMENT NO. 54

GASB Statement 54 requires analysis and presentation of fund balance in five categories. The fund balance categories are:

- Non-Spendable Includes items not immediately converted to cash, such as prepaid items and inventory.
- Restricted Includes items that are restricted by external creditors, grantors or contributors, or restricted by legal constitutional provisions.
- Committed Includes items committed by the District's Board of Education, by formal board action.
- Assigned Includes items assigned for specific uses, authorized by the District's Superintendent and/or Director of Finance Operations.
- Unassigned This is the residual classification used for those balances not assigned to another company.

Below is a schedule of ending fund balance, based on GASB Statement No. 54

| | Ge | eneral Fund | (| Grant Fund | int | Early ervention Fund | Early Learning Fund | Reir | nbursement Fund | D | ebt Service Fund | !m | Capital provement Fund | Go | Other vernmental Funds | Total Governmental Funds |
|----------------------------|----|-------------|----|------------|-----|----------------------------|---------------------------|------|--------------------|----|---------------------|----|------------------------------|----|------------------------------|--------------------------------|
| Fund Balances: | | | _ | | | | | | | | | _ | | _ | | |
| Restricted: | | | | | | | | | | | | | | | | |
| Grant Fund | \$ | - | \$ | 3,217,816 | \$ | • | \$ - | \$ | - | \$ | • | \$ | - | \$ | - | \$ 3,217,816 |
| Early Learning | | - | | - | | 16,440 | 479,378 | | • | | • | | | | - | 495,818 |
| Debt Service Fund | | • | | - | | - | - | | • | | 1,191,775 | | • | | • | 1,191,775 |
| | | • | | 3,217,816 | | 16,440 | 479,378 | | • | | 1,191,775 | | • | | - | 4,905,409 |
| Assigned to: | | | | | | | | | | | | | | | | |
| Faciltity Maintenance Fund | | • | | • | | - | | | | | - | | - | | 162,424 | 162,424 |
| | | • | | • | | - | • | | • | | • | | • | | 162,424 | 162,424 |
| Unassigned: | | 1,390,554 | | - | | | | | 381,198 | _ | • | | | | • | 1,771,752 |
| Total Fund Balances | \$ | 1,390,554 | \$ | 3,217,816 | \$ | 16,440 | \$ 479,378 | \$ | 381,198 | \$ | 1,191,775 | \$ | • | \$ | 162,424 | \$ 6,839,584 |

GASB 54 implementation required Board approved action to authorize commitments of fund balance. There were no commitments made for the last fiscal year.

The Board of Education also authorized the Superintendent and the Business Manager to make assignments of ending fund balance. Assignments of fund balance can be done at any time, including after the fiscal year-end date.

Finally, GASB 54 requires a spending policy, as it related to ending fund balance. The spending policy states in what order fund balance categories are spent. The Board of Education approved the following fund balance order of spending policy:

- 1. Restricted Fund Balance
- 2. Committed Fund Balance
- 3. Assigned Fund Balance
- 4. Unassigned Fund Balance

12. TAX ABATEMENT (GASB 77)

Douglas County, Oregon has entered into tax abatement programs with businesses that operate and/or own property within the country. These programs reduce the amount of property taxes assessed and it results in Douglas Education Service District not receiving \$24,860 in property tax revenue for 2019-2020. However, the District's tax decrease from property tax abatement is offset with an increase from state school support effectively making a zero-net effect in funding.

13. <u>NEGATIVE FUND BALANCE</u>

The Production Service Fund had a negative fund balance of \$32,711. This is mostly due to overestimated budgeted revenues for this fund.

14. <u>OVERSPEND OF BUDGET APPROPRIATIONS</u>

The District overspent its budget appropriations in the following Fund:

| | <u>Actual</u> | <u>Appropriation</u> | <u>Over</u> |
|--------------------------------------|---------------|----------------------|-------------|
| Special Revenue Funds Instruction | \$10,943,929 | \$ 10,472,614 | \$ 471,315 |
| Transfers | \$ 9,465,859 | \$ 9,155,190 | \$ 310,669 |
| Apportionments | \$ 4,176,944 | \$ 4,161,423 | \$ 15,521 |

16. SUBSEQUENT EVENTS

Management of the District has evaluated events and transactions occurring after June 30, 2020 through the date the financial statements were available for issuance, for recognition and/or disclosure in the financial statements. In March of 2020 the World Health Organization declared a world-wide pandemic due to the COVID-19 virus. The pandemic has caused widespread disruption to the economies of the United States and Oregon. The financial impact of COVID-19 is expected to continue, but the duration and severity is unknown. The District is unable to estimate the financial impact COVID-19 will have at this time.

The District is also currently in negotiations for the financing and purchase of additional administrative buildings. The estimated new debt is approximately \$7,700,000, and will include the refinancing of some current debt.

Budgetary Comparison Schedule for the General Fund

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors Douglas Education Service District Roseburg, OR 97470

We have audited the basic financial statements of Douglas Education Service District, as of and for the year ended June 30, 2020, and have issued our report thereon dated December 10, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States,

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-000 through 162-010-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294)
- Insurance and fidelity bonds in force or required by law.
- · Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294)
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-000 through 162-010-320 of the Minimum Standards for Audits of Oregon Municipal Corporations. Except for the following:

The District overspent its budget appropriations in the Special Revenue Funds. See note 14

OAR 162-10-0230 INTERNAL CONTROL

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting. Deficiencies in internal control, if any, were communicated separately.

This report is intended solely for the information and use of the Board of Directors, Oregon Secretary of State, and management and is not intended to be and should not be used by anyone other than these specified parties.

Restriction on Use

This report is intended solely for the information and use of the Board of Directors, Oregon Secretary of State Audits Division, and management and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Douglas Education Service District 1409 NE Diamond Lake Blvd #110 Roseburg, OR 97470

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Douglas Education Service District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 10, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Douglas Education Service District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Douglas Education Service District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Douglas Education Service District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Douglas Education Service District GAS Report of Internal Control and Compliance

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Douglas Education Service District's financial statements are free of material misstatement, we performed test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance on other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion of the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors Douglas Education Service District 1409 NE Diamond Lake Blvd #110 Roseburg, OR 97470

Report on Compliance for Each Major Federal Program

We have audited the Douglas Education Service District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Douglas Education Service District's major federal programs for the year ended June 30, 2020. Douglas Education Service District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Douglas Education Service District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Douglas Education Service District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Douglas Education Service District compliance.

Opinion on Each Major Federal Program

In our opinion, the Douglas Education Service District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Independent Auditor's Report

Report on Internal Control over Compliance

Management of the Douglas Education Service District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Douglas Education Service District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Douglas Education Service District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Douglas Education Service District

Notes to Schedule of Expenditures of Federal Awards June 30, 2020

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Douglas Education Service District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2. Sub-recipients

Of the federal expenditures presented in the schedule, Douglas Education Service District provided no federal awards to sub-recipients.

Douglas Education Service District Auditors Comments For the Fiscal Year ended June 30, 2020

Summary of the Auditor's Results

The audit report issued December 10, 2020, on the general purpose financial statements of Douglas Education Service District as of and for the year ended June 30, 2020, was an unqualified opinion. The audit did not disclose any reportable conditions in internal control for either major or nonmajor programs, nor did the audit disclose any noncompliance which may be material to the financial statements. The audit report on compliance for major programs was an unqualified opinion. There were no audit findings required to be reported in accordance with 2 CFR section 200.216(a).

The major programs identified by Douglas Education Service District were:

Special Education – Cluster – Idea 84.025, 84.027, 84.173

The threshold used to distinguish between Type A and Type B programs was \$750,000. The District did qualify as a low-risk auditee under Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

Findings required to be reported in accordance with generally accepted government auditing standards (GAGAS):

No Findings.

Findings and questioned costs for Federal awards:

Current Year:

No Findings or Questioned Costs.

Summary Schedule of Prior Audit Findings:

No Findings or Questioned Costs

SUPPLEMENTAL INFORMATION, 2019-2020

School District Business Managers and Auditors:

This page is a required part of your annual audited financial statements. Please make sure it is included.

Parts A is needed for computing Oregon's full allocation for ESEA, Title I & other Federal Funds for Education.
